youth sport program policies

The LRD will set registration periods for each sport, allowing enough time in advance for individuals to register before deadlines.

All activity registrations will be based on either age or grade, depending on the sport. The age cutoff date will vary for each sport.

Documentation for proof of age and grade level may be requested at any time.

Deadlines will be strictly enforced to ensure management efficiency, safety and quality of the programs.

No TEAM registrations! LRD only accepts individual registrations on a first-come, first-served basis.

There will be NO coach or friend requests allowed. This is not allowed due to the volume of requests and the LRD commitment to having each team BALANCED as much as possible.

If there are not enough numbers for certain age groups, the LRD may choose to combine age groups. Leagues may be combined based on a 2-year differential to ensure safety and quality of programs.

Participants must play in their appropriate age/grade level. LRD staff has the final say if a participant plays in a different age division.

The LRD cannot guarantee a program will run until registration has ended and participant levels have been determined. Based on registration numbers, participants may not be able to participate in the program in which they are registered for.

After the registration deadline, late registrations will be taken only if there are spots available. If the program is full, a wait list will be kept and the first person on the wait list will be called if a roster spot becomes available. All late registrations will have a \$10 fee added to them.

For all Itty-Bitty Sport Programs, late registrations will not be taken after the program start date.

Uniforms for any late registration may not be delivered by the first game.

Program fees are subject to change.
